

GENERAL SAFETY INSTRUCTIONS

SOLAR RAPTOR® UV HID Lamp
SOLAR RAPTOR® UV-Mischlichtstrahler
SOLAR RAPTOR® T5 UVB Tubes

Every unit has left the factory in a condition that meets all safety standards. To maintain this condition and ensure safe operation, the installation and safety instructions must be observed and followed.

When used in commercial premises, the accident prevention regulations of the Association of Commercial Professional Associations for Electrical Equipment and Installations must be observed.

WARNING

- **The lamp emits UV radiation and is not approved for domestic lighting purposes.**
- Never install the lamp near flammable objects.
- Ensure adequate ventilation. Never cover the lamp.
- Use only temperature-stable lamp sockets.
- In the event of abnormal operation, the lamp must be removed immediately.
- Always disconnect all electronic components from the mains before carrying out maintenance work.
- Do not connect the device to the mains if any parts of it have become wet.
- In the event of damage or malfunction, switch off the supply voltage immediately.
- If safe operation is no longer possible, take the device out of service immediately. Safe operation is no longer possible if the device shows visible damage, has stopped working, or if transport damage or damaged plugs/cables are visible.
- Only connect compatible products once they have reached room temperature. If the appliance is too cold, moisture may condense inside it and potentially cause damage.

- **This product contains small amounts of mercury. If the lamp breaks, please follow these instructions:**
 - Ventilate the room for at least 15 minutes!
 - Sweep up the fragments and place them in a sealable container (e.g. a plastic bag or a preserving jar)!
 - Under no circumstances should you use a vacuum cleaner!
 - Dispose of both broken and non-functional lamps properly, e.g. free of charge at local collection points.

CARE

Clean the product using a dry cloth only. Disconnect the product from the mains before cleaning.

DISPOSAL:

SOLAR RAPTOR® small electrical appliances must not be disposed of with general waste but must be disposed of properly in accordance with the ElektroG (German Electrical and Electronic Equipment Act). Disposal takes place at local recycling centres and collection points. Old small electrical appliances can be handed in there free of charge.
